

CENTRAL COAST FOOTBALL

Weather Affected Fixtures Policy

The following is the CCF weather affected fixtures policy and procedure for all matches in the 2012 Winter Season. This policy was adopted on the 03/05/2011.

Clubs can only make a determination on field closures at the **earliest** on the afternoon prior to the game being held the next day, this will allow for fields to be reviewed closer to game times.

Friday:

Clubs can send a text message through to the wet weather number- **0424505267** on **Friday afternoon up until 5pm** telling of their ground being CLOSED. The website will not update until after 5PM. Of course clubs will still have the option to wait until Saturday by 6.00am to make this decision.

Saturday:

Clubs will have until **6.00am** to send a text through for a Saturday **CLOSURE**. Please note that if a club closes a ground on Friday afternoon it **cannot reopen** on Saturday morning.

If a club wants to send through that its ground will be closed for Sundays games it can do so on Saturday afternoon **by 5pm**.

Any ground that was closed on Saturday and notification has not been received by 5pm Saturday that its ground is closed for Sunday will have their status changed to Pending

Sunday:

Clubs can notify by text message by **6.00am** that their ground is closed.

Any ground that has had its status changed to pending from Saturday will be changed to **OPEN** if no notification is received that the ground is closed by 6.30am.

Monday:

All grounds will be reset to OPEN on Monday morning.
